

CORRIZON® BASE

PUTTING AN END TO CORROSION EVERYWHERE

RUSTABOUT

ecologic solution for corrosion

RECOMMENDATIONS FOR TOP PAINT

RUSTABOUT SAS RECOMMENDS ITS OWN PAINT SYSTEMS AS A FIRST CHOICE I.E.:

1. CORRIZON® BASE with or without intermediate coat and with its waterborne top coat.
2. CORRIZON® BASE with or without intermediate coat and with our 100% solids self-cross linking 1K «HYBRID» top.

OTHERWISE RUSTABOUT SAS RECOMMENDS:

1. Medium and or top coat water based compatible with its bases emulsions (according to CAS Number document).
2. 2K-top coat Solvent or water-based Polyurethane (*modified*) some Epoxy's for indoors.

In general, RUSTABOUT SAS recommends to do an adhesion test before coming to specific top coat.

Please pay attention to application instruction document.
